- g. Strive to attend all meetings of the Board of Directors and the Committees;
- h. Participate constructively and actively in the Committees of the Board in which they are Chairpersons or members;
- i. Strive to attend the general meetings of the Company;
- j. Keep themselves well informed about the Company and the external environment in which it operates;
- k. Do not to unfairly obstruct the functioning of an otherwise proper Board or Committee of the Board;
- l. Moderate and arbitrate in the interest of the Company as a whole, in situations of conflict between management and shareholder's interest.
- m. Abide by Company's Memorandum and Articles of Association, Company's policies and procedures including code of conduct, insider trading guidelines etc.

The Executive Director/ Non-Independent Directors along with the Independent Directors will evaluate/ assess each of the Independent Directors on the aforesaid parameters. Only the Independent Director being evaluated will not participate in the said evaluation discussion.

Remuneration of Directors, KMP's and SMP:

The guiding principle is that the level and composition of remuneration shall be reasonable and sufficient to attract, retain and motivate Directors, KMP and other SMP. The Directors, KMP and other SMP's salary shall be based and determined on the individual person's responsibilities and performance and in accordance with the limits as prescribed statutorily, if any.

The Nomination and Remuneration Committee determines individual remuneration packages for Directors, KMP and SMP of the Company taking into account factors it deems relevant, including but not limited to market, business performance and practices in comparable Companies, having due regard to financial and commercial health of the Company as well as prevailing laws and government/ other guidelines. The Committee consults with the Chairman of the Board as it deems appropriate. Remuneration of the Chairman is recommended by the Committee to the Board of the Company. The remuneration should also involve a balance between fixed and incentive pay reflecting short and long-term performance objectives appropriate to the workings of the Company and its goods:

A. Director/ Managing Director:

a. Base Compensation (fixed salaries) –

Must be competitive and reflective of the individual's role, responsibility and experience in relation to performance of day-to-day activities, usually reviewed on an annual basis; (includes salary, allowances and other statutory/ non-statutory benefits which are normal part of remuneration package in line with market practices).

b. Variable salary –

The Nomination and Remuneration Committee may in its discretion structure any portion of remuneration to link rewards to corporate and individual performance, fulfillment of specified improvement targets or the attainment of certain financial or other objectives set by the Board. The amount payable is determined by the Committee, based on performance against pre-determined financial and nonfinancial metrics.

B. Non Executive Independent Directors –

The Independent Directors shall not be entitled to any stock option and may receive remuneration by way of fee for attending meetings of the Board or Committee thereof or for any other purpose as may be decided by the Board and profit related commission as may be approved by the Members. The sitting fee to the Independent Directors shall not be less than the sitting fee payable to other Directors provided that the amount of such fees shall be subject to ceiling/ limits as provided under Companies Act, 2013 and rules made thereunder or any other enactment for the time being in force.

The remuneration payable to the Directors shall be as per the Company's policy and shall be valued as per the Income Tax Rules.

C. KMPs/ SMP etc –

The remuneration payable to the KMP and the SMP shall be as may be decided by the Board having regard to their experience, leadership abilities, initiative taking abilities and knowledge base and governed by the limits, if any prescribed under the Companies Act, 2013 and rules made thereunder or any other enactment for the time being in force.

Policy on Board diversity:

The Board of Directors shall have the optimum combination of Directors from the different areas/ fields like Production, Management, Quality Assurance, Finance, Sales and Marketing, Supply chain, Research and Development , Human Resources, etc. or as may be considered appropriate.

The Board shall have at least one Board member who has accounting or related financial management expertise and at least three members who are financially literate.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Indian Economy:

The world is facing health crises due to the outbreak of corona virus pandemic. India, unfortunately is one of the worst affected countries. The steps taken by the government to control the spread of the corona virus has had huge impact on the Indian economy. Further, the economic package announced by the government also has had very little impact on the revival of the economy.

Even though the corona virus pandemic hit the country in the month of February, 2020, the economy was already experiencing a slowdown in FY 2019-20. The corona virus pandemic and the consequent slowdown have worsened the economic situation in the country.

Industry Structure and Developments:

The technology sector has seen stable growth. The government has also been promoting digitizing the economy and encouraging use of technology not only for business purposes but also in day to day lives of people through online banking, payments, e-commerce, etc. Further, the corona virus pandemic has left people and businesses with no choice but to use the technology to the extent possible. Hence, the consumption for tech products/solutions can shoot up in the short term. However, the present scenario is also expected to sway everyone towards actively integrating technology in their lives as a long term habit. This should have a positive impact on the industry.

Financial Performance:

During the year under review, your company reported total revenue of Rs. 32.88 lakhs as compared to Rs. 427.05 lakhs in the previous year. The loss of Rs. 8,995.90 for FY 2019-20 reported against the profit of Rs. 55.68 lakhs for FY 2018-19. The increasing competition in the IT products segment has had an adverse impact on the growth and profitability of the company. Opportunities:

It is expected that more and more people will integrate technology in their lives. Many tasks which were earlier done manually will be done with the help of technology. Many businesses will try to automate the processes so as to save costs and ensure business continuity in the future crises.

This change will propel the demand to technology products and solutions in the long run. Further, once the technology is deeply integrated in our life and businesses, the demand for up-gradation will create demand and also technological developments.

Risks and Concerns:**1. Regulatory Risks:**

This kind of risk is mainly due to inadequate compliance to regulations, contractual obligations or any other statutory violations leading to litigations and loss of reputation. Non-compliance with legal/regulatory/tax, change in government policies, etc. which might disrupt the company's operations.

2. Financial Risk:

Company pays to suppliers in advance before receiving payments from the customers, provide financial assistance to partners in the form of inter corporate loans, making strategic investments in business entities. Delay/non-receipt of payment/repayment or failure of Investee Company is a financial risk.

3. Technology Risk:

Technology obsolescence and changing consumer preference coupled with Cyber Crimes, viruses, etc. can lead to disruption in smooth functioning of the company.

4. Competition:

Cut-throat competition and falling margins can affect profitability of the Company. The Company is expanding its product offerings and working on operational efficiency to stay competitive.

Outlook:

The short term outlook is challenging as the slowdown in the economy will lead to many business failures, cost cutting on technology upgradation, etc. It is our view that initially businesses and consumers will spend on technology only when necessary. However, the demand for technology products /solutions will increase as the economy stabilizes.

Internal Control Systems and their Adequacy:

The Company strictly adheres to the internal control systems as laid down and updated from time to time. The internal audit team carries out extensive audit of all operations at regular intervals. The company implements the policies and procedures so as to safeguard the assets and interests of the company. The internal control systems are implemented with a view to achieve good ethical culture within the organization. The internal control systems would ensure that all the vulnerabilities are detected in a timely manner and corrective actions are taken promptly.

Based on its evaluation (as defined in section 177 of the Companies Act, 2013 and clause 18 of the SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015, our audit committee has concluded that as of March 31, 2020, our internal financial controls were adequate and operating effectively.

INDEPENDENT AUDITORS REPORT

TO,
THE MEMBERS,
AVANCE TECHNOLOGIES LIMITED

Report on the Audit of the Standalone Financial Statements:

We have audited the accompanying standalone financial statements of AVANCE TECHNOLOGIES LIMITED ("the Company"), which comprise the Balance Sheet as at 31st March, 2020, the Statement of Profit and Loss (including Other Comprehensive Income), the Statement of changes in equity and the Statement of Cash Flow for the year then ended, and a summary of the significant accounting policies and other explanatory information.

Management's Responsibility for the Standalone Ind AS Financial Statements:

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these standalone financial statements that give a true and fair view of the financial position, financial performance (including Other Comprehensive Income), changes in equity and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under Section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the standalone financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility:

Our responsibility is to express an opinion on these standalone financial statements based on our audit.

We have taken into account the provisions of the Act, the accounting and auditing standards and matters which are required to be included in the audit report under the provisions of the Act and the Rules made there under.

We conducted our audit in accordance with the Standards on Auditing specified under Section 143(10) of the Act. Those Standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and the disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments; the auditor considers internal financial control relevant to the Company's preparation of the financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances. An audit also includes evaluating the appropriateness of the accounting policies used and the reasonableness of the accounting estimates made by the Company's Directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the standalone financial statements.

Opinion:

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid standalone financial statements give the information required by the Act in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at 31st March, 2020, and its profit/loss, Total Comprehensive Income, the changes in equity and its cash flows for the year ended on that date.

Report on Other Legal and Regulatory Requirements:

As required by the Companies (Auditor's Report) Order, 2016 (the Order) issued by the Central Government of India in terms of Section 143(11) of the Act, we enclose in the "Annexure A" a statement on matters specified in paragraph 3 & 4 of the said order.

As required by Section 143(3) of the Act, we report that:

We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.

In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books

The Balance Sheet, the Statement of Profit and Loss, and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.

In our opinion, the aforesaid standalone financial statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.

On the basis of the written representations received from the directors as on 31st March, 2020 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2020 from being appointed as a director in terms of Section 164 (2) of the Act.

With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure B".

With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:

The Company has disclosed the impact of pending litigations on its financial position in its financial statements.

The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.

There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.

“Annexure B” to Independent Auditor’s Report

Referred to in paragraph 10(f) of the Independent’s Auditor’s Report of even date to the members of Avance Technologies Limited on the standalone financial statements for the year ended 31st March, 2020.

Report on the Internal Financial Controls under Clause (i) of sub – section 3 of Section 143 of the Act

1. We have audited the internal financial controls over financial reporting of Avance Technologies Limited (“the Company”) as of 31st March, 2020 in conjunction with our audit of the standalone financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls:

2. The Company’s management is responsible for establishing and maintaining internal financial controls based on internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (ICAI). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Act.

Auditor’s Responsibility:

3. Our responsibility is to express an opinion on the Company’s internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the “Guidance Note”) and the standards on auditing deemed to be prescribed under section 143(10) of the Act to the extent applicable to an audit of internal financial controls, both applicable to an audit of internal financial controls and both issued by the ICAI. Those standards and Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all materials respects.
4. Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.
5. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company’s internal financial controls system over financial reporting.

Meaning of Internal Financial Controls over Financial Reporting:

6. A company’s internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company’s internal financial controls over financial reporting includes those policies and procedures that,
 - (1) Pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
 - (2) Provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and
 - (3) Provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company’s assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting:

7. Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial control over financial

reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion:

8. In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at 31st March, 2020, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India.

Fair value hierarchy	
	Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
	Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
	Level 3 - Inputs for the assets or liabilities that are not based on observable market data (unobservable inputs).
	(*) The fair value of these investments in equity shares are calculated based on discounted cash flow approach for un-quoted market instruments which are classified as level III fair value hierarchy.
	(^) The carrying values of these accounts are considered to be the same as their fair value, due to their short term nature. Accordingly, these are classified as level 3 of fair value hierarchy.

Note no.	Financial risk management
31	The Company has exposure to following risks arising from financial instruments-
	- credit risk
	- market risk
	- liquidity risk

(a)	Risk management framework
	The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Company's activities.

(b)	Credit risk
	Credit risk is the risk that counter party will not meet its obligations under a financial instruments or customer contract leading to a financial loss. The Company is exposed to credit risk from its operating activities (primarily trade receivables) from its financing activities including deposits with banks and investment in quoted and un-quoted equity instruments.

i)	Trade and other receivables:
	Credit risk is managed by each business unit subject to the Company's established policy, procedures and control relating to customer credit risk management. Outstanding customer receivables are regularly monitored.
	The impairment analysis is performed at each reporting date on an individual basis for major customers. In addition, a large number of minor receivables are grouped into homogeneous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company does not hold collateral as security.

Expected credit loss (ECL) assessment for corporate customers

The Company allocates each exposure to a credit risk grade based on a variety of data that is determined to be predictive of the risk of loss (including but not limited to past payment history, security by way of deposits, external ratings, audited financial statements, management accounts and cash flow projections and available press information about customers) and applying experienced credit judgments.

ii) Other financial assets and deposits with banks:

Credit risk on cash and cash equivalent is limited as (including bank balances, fixed deposits and margin money with banks) the Company generally transacts with banks with high credit ratings assigned by international and domestic credit rating agencies.

(c) Market Risk**Equity price risk**

The Company is exposed to equity price risk from investments in equity securities measured at fair value through profit and loss. The Management monitors the proportion of equity securities in its investment portfolio based on market indices and based on company performance for un-equity instruments. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Board of Directors. Further, major investments in un-quoted equity instruments are strategic in nature and hence invested for long-term purpose.

Interest rate risk

Interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates relates primarily to its short term borrowings in nature of working capital loans, which carry floating interest rates. Accordingly, the Company's risk of changes in interest rates relates primarily to the Company's debt obligations with floating interest rates.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant. The impact on entity's loss before tax due to change in the interest rate/ fair value of financial liabilities are as disclosed below:

Particulars	Year ended 31 March 2020		Year ended 31 March 2019	
	Change in interest rate	Effect of after tax	Change in interest rate	Effect of after tax
Short-term borrowings	+1%	0.05	+1%	0.05
	-1%	(0.05)	-1%	(0.05)

(d) Liquidity Risk

Liquidity is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing the liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The Company's principal sources of liquidity are cash and cash equivalents and the cash flow that is generated from operations. The Company believes that the cash and cash equivalents is sufficient to meet its current requirements. Accordingly no liquidity risk is perceived.

Exposure to liquidity risk

The table below details the Company's remaining contractual maturity for its non-derivative financial liabilities. The contractual cash flows reflect the undiscounted cash flows of financial liabilities based on the earliest date on which the Company can be required to pay.

AVANCE TECHNOLOGIES LIMITED

Notes to the standalone financial statements for the year ended 31st March 2020

1. Corporate Information:

Avance Technologies Limited ('the Company') was incorporated under the provisions of the Companies Act applicable in India.

These financial statements were authorized for issue in accordance with a resolution of the directors on 29th July, 2020.

2. Basis of preparation and Significant accounting policies:

2.1. Basis of preparation:

In accordance with the notification issued by the Ministry of Corporate Affairs, the Company has adopted Indian Accounting Standards ("Ind AS") notified under The Companies (Indian Accounting Standards) Rules, 2015 and The Companies (Indian Accounting Standards) amendment Rules 2016, as amended with effect from April 1, 2017. The financial statements of the Company have been prepared and presented in accordance with Ind AS.

These financial statements have been prepared on a historical cost basis, except for certain financial instruments which are measured at fair value at the end of each reporting period, as explained further in the accounting policies below.

- Certain financial assets like investment in equity shares are measured at fair value,
- The standalone financial statements are presented in INR and all the values are rounded off to the nearest lakhs (INR100,000) except when otherwise indicated.

2.2. Summary of significant accounting policies:

a) Current versus non-current classification:

- The Company presents assets and liabilities in the balance sheet based on current/ non-current classification.
- An asset is treated as current when it is:
 - Expected to be realised in normal operating cycle or within twelve months after the reporting period
 - Held primarily for the purpose of trading, or
 - Cash or cash equivalents unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period
- All other assets are classified as non-current.

A liability is current when:

- It is expected to be settled in normal operating cycle or due to be settled within twelve months after the reporting period or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

The Company classifies all other liabilities as non-current.

Deferred tax assets and liabilities are classified as non-current assets and liabilities.

The operating cycle is the time between the acquisition of assets for processing and their realization in cash and cash equivalents. The Company has identified period of twelve months as its operating cycle.

b) Significant accounting, judgments, estimates and assumptions:

The preparation of the Company's Financial Statements in conformity with Ind AS requires management to make judgments, estimates and assumptions that affect the reported amounts of assets and liabilities, the accompanying disclosures, and the disclosure of contingent assets and contingent liabilities on the date of the standalone financial statements and the reported amounts of revenues and expenses for the year reported. Actual results could differ from those estimates. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the year in which the estimates are revised and future periods are affected.

Key source of estimation of uncertainty as at the date of financial statements, which may cause a material adjustment to the carrying amounts of assets and liabilities within the next financial year, is in respect of the following:

Investment in equity shares:

The Company is exposed to equity price risk from investments in equity securities measured at fair value through profit and loss. The Management monitors the proportion of equity securities in its investment portfolio based on market indices. Material investments within the portfolio are managed on an individual basis and all buy and sell decisions are approved by the Board of Directors.

Taxes:

Deferred tax assets are recognised for unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and the level of future taxable profits together with future tax planning strategies. Uncertainties exist with respect to the interpretation of complex tax regulations and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates, for possible consequences of assessments by the tax authorities. The amount of such provisions is based on various factors, such as experience of previous tax assessments and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the Company's domicile.

Minimum Alternative Tax ("MAT") credit is recognised as deferred tax asset based on evidence that the Company will pay normal income tax during the specified period. Significant judgments are involved in determining the future taxable income and future book profits, including amount of MAT credit available for set-off.

Impairment of non-financial assets:

Impairment exists when the carrying value of an asset or cash generating unit ("CGU") exceeds its recoverable amount, which is the higher of its fair value less costs of disposal and its value in use. The fair value less costs of disposal calculation is based on available data from binding sales transactions, conducted at arm's length, for similar assets or observable market prices less incremental costs for disposing of the asset. The value in use calculation is based on a discounted cash flow ("DCF") model. The cash flows are derived from the budget for future years and do not include restructuring activities that the Company is not yet committed to or significant future investments that will enhance the asset's performance of the CGU being tested. The recoverable amount is sensitive to the discount rate used for the DCF model as well as the expected future cash-inflows and the growth rate used for extrapolation purposes.

Impairment of financial assets:

The Company assesses impairment of financial assets ('Financial instruments') and recognizes expected credit losses in accordance with Ind AS 109. The Company provides for impairment of trade receivables and unbilled revenue outstanding for more than 1 year from the date they are due for payment and billing respectively. The Company also assesses for impairment of financial assets on specific identification basis at each period end. Also, refer note 2

The Company provides for impairment of investment in subsidiaries. Impairment exists when there is a diminution in value of the investment and the recoverable value of such investment is lower than the carrying value of such investment.

c) Fair value measurement:

The company measures financial instrument such as investments at fair value at each balance sheet date.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- In the principal market for the asset or liability - or
- In the absence of a principal market, in the most advantageous market for the asset or liability

The principal or the most advantageous market must be accessible by the Company.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

Currently company carries those instruments in level 1 inputs of the above mentioned fair value hierarchy.

For the purpose of fair value disclosures, the Company has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of the fair value hierarchy as explained above.

d) Financial instruments:

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

i. Financial assets:

Initial recognition and measurement:

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit and loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement:

For purposes of subsequent measurement, financial assets are classified in three broad categories:

- Debt instruments assets at amortised cost
- Equity instruments measured at fair value through profit or loss (FVTPL)

When assets are measured at fair value, gains and losses are either recognised entirely in the statement of profit and loss (i.e. fair value through profit and loss), or recognised in other comprehensive income (i.e. fair value through other comprehensive income).

Debt instruments at amortized cost:

A debt instrument is measured at amortised cost (net of any write down for impairment) if both the following conditions are met:

- the asset is held to collect the contractual cash flows (rather than to sell the instrument prior to its contractual maturity to realise its fair value changes), and
- the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest ("SPPI") on the principal amount outstanding.

Such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the profit and loss. The losses arising from impairment are recognised statement of profit and loss. This category generally applies to trade and other receivables.

Financial assets at fair value through OCI (FVTOCI):

A financial asset that meets the following two conditions is measured at fair value through OCI unless the asset is designated at fair value through profit and loss under fair value option.

- The financial asset is held both to collect contractual cash flows and to sell.
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Instruments included within the FVTOCI category are measured initially as well as at each reporting date at fair value. Fair value movements are recognized in OCI. However, the Company recognizes interest income, impairment losses & reversals and foreign exchange gain or loss in the Profit and Loss. On derecognition of the asset, cumulative gain or loss previously recognised in OCI is reclassified from the equity to Profit and Loss. Interest earned whilst holding FVTOCI debt instrument is reported as interest income using the EIR method.

Financial assets at fair value through profit and loss:

FVTPL is a residual category for company's investment instruments. Any instruments which does not meet the criteria for categorization as at amortized cost or as FVTOCI, is classified as at FVTPL.

All investments included within the FVTPL category are measured at fair value with all changes recognized in the Profit and Loss.

In addition, the company may elect to designate an instrument, which otherwise meets amortized cost or FVTOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Equity investments:

All equity investments in scope of Ind AS 109 are measured at fair value. Equity instruments which are held for trading are classified as at FVTPL. For all other equity instruments, the Company may make an irrevocable election to present in other comprehensive income subsequent changes in the fair value. The Company has not made any such election. This classification is made on initial recognition and is irrevocable.

If the Company decides to classify an equity instrument as at FVOCI, then all fair value changes on the instrument, excluding dividends, are recognized in the OCI. There is no recycling of the amounts from OCI to P&L, even on sale of investment. However, the Company may transfer the cumulative gain or loss within equity.

Equity instruments included within the FVTPL category are measured at fair value with all changes recognized in the P&L.

Equity investment in subsidiary is measured at cost.

De-recognition:

When the Company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; it evaluates if and to what extent it has retained the risks and rewards of ownership.

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) is primarily de-recognised when:

- The rights to receive cash flows from the asset have expired, or
- Based on above evaluation, either (a) the Company has transferred substantially all the risks and rewards of the asset, or (b) the Company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a bases that reflect the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Company could be required to repay.

Impairment of financial assets:

The Company assesses at each date of balance sheet whether a financial asset or a group of financial assets is impaired. Ind AS109 ('Financial instruments') requires expected credit losses to be measured through a loss allowance. The Company recognizes lifetime expected losses for all contract assets and / or all trade receivables that do not constitute a financing transaction. For all other financial assets, expected credit losses are measured at an amount equal to the 12-month expected credit losses or at an amount equal to the life time expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition.

ii. Financial liabilities:**Initial recognition and measurement:**

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit and loss or at amortised cost, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings, net of directly attributable transaction costs.

The Company's financial liabilities include trade payables, lease obligations, and other payables.

Subsequent measurement:

The measurement of financial liabilities depends on their classification, as described below:

Financial liabilities at amortised cost:

After initial recognition, interest-bearing loans and borrowings and other payables are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit and loss when the liabilities are de-recognised as well as through the EIR amortisation process.

Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statement of profit and loss.

De-recognition:

A financial liability is de-recognised when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit and loss.

iii. Offsetting of financial instruments:

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

iv. Reclassification of financial assets:

The Company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities.

For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The Company's senior management determines change in the business model as a result of external or internal changes which are significant to the Company's operations. Such changes are evident to external parties. A change in the business model occurs when the Company either begins or ceases to perform an activity that is significant to its operations. If the Company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The Company does not restate any previously recognised gains, losses (including impairment gains or losses) or interest.

e) Impairment of non-financial assets:

Non-financial assets including Property, plant and equipment and intangible assets with finite life are evaluated for recoverability whenever there is any indication that their carrying amounts may not be recoverable. If any such indication exists, the recoverable amount (i.e. higher of the fair value less cost to sell and the value-in-use) is determined on an individual asset basis unless the asset does not generate cash flows that are largely independent of those from other assets. In such cases, the recoverable amount is determined for the CGU to which the asset belongs.

If the recoverable amount of an asset (or CGU) is estimated to be less than its carrying amount, the carrying amount of the asset (or CGU) is reduced to its recoverable amount. An impairment loss is recognised in the standalone statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognised impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in the standalone statement of profit and loss unless the asset is carried at a revalued amount, in which case, the reversal is treated as a revaluation increase.

f) Lease:

The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease. The arrangement is, or contains, a lease if fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset or assets, even if that right is not explicitly specified in an arrangement.

Where the Company as a lessee:

A lease is classified at the inception date as a finance lease or an operating lease. A lease that transfers substantially all the risks and rewards incidental to ownership to the Company is classified as a finance lease. An operating lease is a lease other than a finance lease.

Operating lease:

Operating lease payments are recognised as an expense in the statement of profit and loss on a straight line basis.

g) Revenue recognition:

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured, regardless of when the payment is made. Revenue is measured at the fair value of the consideration received or receivable, taking into account contractually defined terms of payment. The following specific recognition criteria must also be met before revenue is recognised:

Revenue from sale of products is stated net off discounts and any applicable duties and taxes on dispatch of goods in accordance with terms of sales.

Further, revenue from treasury investment activities like investment in quoted and un-quoted equity shares are measured at fair value through profit or loss at each reporting date.

The Company collects goods and service tax, service tax, sales tax and other taxes as applicable in the respective tax jurisdictions where the Company operates, on behalf of the government and therefore it is not an economic benefit flowing to the Company. Hence, it is excluded from revenue.

ii. Other income:

Dividend income is recognised when the Company's right to receive dividend is established by the reporting date. The right to receive dividend is generally established when shareholders approve the dividend.

Interest income is recognized as it accrues in the standalone statement of profit and loss using effective interest rate method.

h) Foreign currency translation:

i. Initial recognition:

Foreign currency transactions are recorded in the reporting currency, by applying to the foreign currency amount the exchange rate between the reporting currency and the foreign currency at the date of the transaction.

ii. Conversion:

Foreign currency monetary items are reported using the closing rate. Non-monetary items which are carried in terms of historical cost denominated in a foreign currency are reported using the exchange rate at the date of the transaction. Non-monetary items, which are measured at fair value or other similar valuation denominated in a foreign currency, are translated using the exchange rate at the date when such value was determined.

iii. Exchange differences:

Exchange differences arising on the settlement of monetary items or on reporting monetary items of Company at rates different from those at which they were initially recorded during the year, or reported in previous financial statements, are recognised as income or as expenses in the year in which they arise except those arising from investments in non-integral operations.

i) Taxes:

Tax expense comprises of current and deferred tax.

Current income tax:

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities in accordance with the Income-tax Act, 1961. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognised outside profit and loss is recognised outside profit and loss (either in other comprehensive income or in equity). Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate. Tax liability under Minimum Alternate Tax ("MAT") is considered as current tax. MAT entitlement is considered as deferred tax.

Minimum Alternative Tax ("MAT") credit is recognised as an asset only when and to the extent there is convincing evidence that the Company will pay normal income tax during the specified period. Such asset is reviewed at each Balance Sheet date and the carrying amount of the MAT credit asset is written down to the extent there is no longer a convincing evidence to the effect that the Company will pay normal income tax during the specified period.

Deferred Tax:

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss.
- In respect of taxable temporary differences associated with investments in subsidiaries when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences and the carry forward of any unused tax losses. Deferred tax assets are recognised to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax losses can be utilised, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Un-recognised deferred tax assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognised outside profit and loss is recognised outside profit and loss (either in OCI or in equity). Deferred tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

j) Provisions, Contingent liabilities, Contingent assets and Commitments:

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The expense relating to a provision is presented in the statement of profit and loss.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, when appropriate, the risks specific to the liability. When discounting is used, the increase in the provision due to the passage of time is recognised as a finance cost.

Provisions are reviewed at each balance sheet date and adjusted to reflect the current best estimates.

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or a present obligation that arises from past events but is not recognised because it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation; or the amount of the obligation cannot be measured with sufficient reliability.

A contingent asset is disclosed, where an inflow of economic benefits is probable.

k) Earnings per share:

Basic earnings per share are calculated by dividing the net profit or loss for the period attributable to equity shareholders by the weighted average number of equity shares outstanding during the period.

For the purpose of calculating diluted earnings per share, the net profit or loss for the period attributable to equity shareholders and the weighted average number of shares outstanding during the period are adjusted for the effects of all dilutive potential equity shares.

l) Segment reporting:

The Company has only one segment of activity of dealing in IT products during the period; Hence, segment wise reporting as defined in Indian Accounting Standard-108 is not applicable.

m) Inventory:

Inventories are valued at cost or net realizable value whichever is lower, computed on a FIFO basis, after providing for cost of obsolescence and other anticipate losses, wherever considered necessary. Finished

goods include costs of conversion and other costs incurred in bringing the inventories to their present location and condition as certified by the management.

n) Retirement and other employee benefits:

Employee benefits include provident fund and compensated absences.

Defined contribution plans:

Contributions payable to recognized provident funds, which are defined contribution schemes, are charged to the standalone statement of profit and loss.

Short-term employee benefits:

Short-term employee benefits expected to be paid in exchange for the services rendered by employees are recognised during the year when the employees render the service. Compensated absences, which are expected to be utilised within the next 12 months, are treated as short-term employee benefits. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

o) Cash and cash equivalents:

Cash and cash equivalents in the balance sheet comprise cash at banks and on hand and short-term deposits with an original maturity of three months or less, which are subject to an insignificant risk of changes in value are unrestricted for withdrawal and usage

For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits, as defined above, net of outstanding bank overdrafts as they are considered an integral part of the Company's cash management.

p) Recent accounting pronouncements:

Ministry of Corporate Affairs ("MCA") notifies new Standard or amendments to the existing standards. There is no such notification which would have been applicable from April 01, 2020.
